The Mine being older and deeper than any other on SRON's TRACT, gives it a decided preference. Every care and attention will be paid in sending it to customers perfectly clean and free from all impurities.

CERTIFICATES OF CONSUMERS.

We certify, that we are now using from a cargo of Coal denominated PEACH ORCHARD, which we purchased of Mr. N. BLASDELL, and find it superior to any other Anthracite Coal, that we have used for our steam engine. Its properties are a quick ignition, strong heat and blaze, and less slate and other impurities than we have ever found in the different qualities of Anthracite Coal that we have made use of, and we consider the economy equal to 15 per cent in its favor over all others.

(Signed)

MERSEREAU & BREATH,
 Brooklyn Marine Railway.

The Brooklyn White Lead Company are now using, at their Works and in their families, Schuylkill Coal, furnished by Mr. N. Blasdell, which proves to be first quality, and they cheerfully recommend it, both for manufacturing and domestic purposes.

(Signed)

G. S. HOWLAND.

This will certify, that the coal bought at the NASSAU COAL YARD, from Mr. N. Blasdell, I consider superior for steam purposes, to any Schuylkill, Lackawanna, or Lehigh, that I have ever used, it being easily ignited, and burns with a free blaze, and has less impurities. Having constantly used it for our own Steam Mill, I can give it the strongest recommendation.

(Signed)

WILLIAM HOPKINS,
 Engineer of the Steam Saw Mill.

I have tried the Peach Orchard Coal, bought of Mr. N. Blasdell, both under my steam engine, and in my own and other families, connected with my establishment, and have found it more pure and a better article than I have tried, and consider while using it a saving of 15 per cent, besides the pleasure of a handsome fire.

ABSTRACT OF CITY CHARTER AS AMENDED.

Title.—The Mayor and Common Council of the city of Brooklyn.

Wards.—The city comprises nine wards, of which the former five districts of the village constitute the first five, and four new wards are erected.

CITY ELECTION AND OFFICERS.

The Annual Election for city officers, takes place on the second Tuesday in April.

The polls are held in each of the wards, at places designated by the Common Council.

Officers Elected.—At the annual election, two aldermen, one constable and two assessors are elected in each ward. Beside these, there is a general ticket for the first seven wards, of five supervisors, three collectors and three overseers of the poor. One of the candidates for the last mentioned office, must be taken from the eighth or ninth ward.

The eighth and ninth wards elect, besides their aldermen, constable and assessors—one supervisor and one collector, and, jointly with all the other wards, three overseers of the poor.

These officers enter upon their duties the first Monday of May, and hold their offices for one year; but the assessors are required to meet as a board on the Tuesday after they have taken the constitutional oath of office.

The common council, on the first Monday of May, shall meet to appoint a Mayor, and various other officers, such as weighers, measurers, guagers, &c.

The common council also may appoint a clerk, treasurer, attorney and counsellor, a street commissioner, a clerk for each market, two city collectors, and a number of marshals not exceeding seven.

MISCELLANEOUS PROVISIONS.

The common council shall publish every year a statement of the financial concerns of the city, at least ten days before the annual election.

The mayor shall possess, and may exercise in the courts of Oyer and Terminer and general sessions of the peace in the county of Kings, the same powers as are by law exercised by either of the judges of the county courts.

The first seven wards shall constitute a fire and watch district.

The supervisors of the city and common council, shall meet together annually on the third Monday of May. The board thus formed shall then determine what sum, in addition to that which may be directed by the general board of supervisors of the county of Kings, to be raised to defray county charges, is necessary to be raised by tax for the various public purposes of said city—the sum so fixed not to exceed thirty thousand dollars, unless the excess be authorized by a special act of the legislature, except that they may add to the amount they may determine to raise, such further sum as may be necessary for the fire department, engines, engine houses, implements, &c.

The expense of the fire and watch districts, shall be borne by the first seven wards.

The aldermen of each ward are fence viewers for their respective wards.

The members of the common council shall be fire wardens, and the common council may appoint other fire wardens.

The common council of the city, or such of their number in conjunction with the mayor, as they may designate for that purpose, shall be commissioners of excise for the city, and as such, may grant licences, to tavern keepers and grocers, to sell liquors and wines in the cases and manner prescribed in the Revised Statutes of this state.

The common council may pass ordinances to regulate ordinaries, victualling and oyster houses, or cellars, and places where porter, ale, or strong beer, currant wine, cider, cherry wine, and metheglin, or any of them may be drank, and to require the same to be licensed.

The common council are constituted a Board of Health, and the mayor of the city shall be president of the same. The Board of Health are empowered to appoint, annually, a Health Physician.

No vessel, subject to the examination of the health officer of the Port of New-York, shall approach Brooklyn beyond Quarantine, without a permit from said Health Officer—and the master of every such vessel is to report his arrival to the president of the board of health.

Any person practising physic in the city, who shall have any patient laboring under a malignant fever, or cholera, or any pestilential or infectious disease, shall forthwith make report of the same, signed by the said physician to some one of the board of health.

All persons sick of any pestilential disease, may be removed to the City Hospital, or any other convenient place.

Vessels lying at or near the wharves of the city, containing a quantity of gun powder, considered dangerous in the opinion of the mayor and any two aldermen, may be directed to remove to a distance not exceeding three hundred yards from the wharf or shore; and in case the master or person having charge of such vessel shall refuse to obey, he shall incur a fine of \$500.

The common council may prescribe and fix certain limits in the city, within which it shall not be lawful to carry on any noxious or offensive trades, manufactoryes, or establishments.

The justices of the municipal court shall have all the powers, in criminal proceedings, of justices elected in the several towns in this state.

The common council shall have power to call meetings of the freeholders, by giving eight days previous notice, at which meeting it shall be lawful for the taxable inhabitants to direct a sum of money to be raised, for purchasing a lot or lots of land, and for erecting thereon any public buildings which may be required for the city.

The mayor and common council are empowered to raise, by loan, not exceeding the sum of five hundred thousand dollars on the credit of the city, for the purpose of erecting Public Buildings, and for otherwise improving and benefitting the said city—redeemable in twenty years. The rate of interest, not to exceed six per cent. and the faith and property of the city shall be pledged for the redemption of the loans, so procured.
